

Struggling with business travel expenses?

Our payment solution smooths the process.

Managing travel expenses shouldn't be hard.

Business travel expenses can add up fast - but tracking them shouldn't slow your team down. Right now, managing payments might look like this:

- Multiple employees using different credit cards, leading to scattered expenses.
- Chasing receipts and approvals, wasting valuable time on reconciliation.
- Travel payments disrupting cash flow, tying up funds that could be used elsewhere.
- Lack of visibility over total travel spend, making budgeting harder than it needs to be.
- Employees fronting their own money, then waiting weeks for reimbursement.

Corporate Traveller's Trading Account takes the hassle out of business travel expenses by bringing everything into one simple, structured process.

How it works

- A single, organised monthly statement – No more chasing down receipts or managing multiple accounts.
- Expenses aligned with cost centres – Sort and track travel costs based on your company's accounting setup.
- Predictable billing – Pay later with structured invoicing to keep cash flow steady.
- Detailed reporting insights – View and track travel expenses with daily updated reporting.
- No more out-of-pocket costs for employees – Direct payments mean no one has to wait for reimbursement.

See the difference:

Without Corporate Traveller Trading Account	With Corporate Traveller Trading Account
Every traveller books and pays separately	A structured monthly statement simplifies payments
Credit cards, invoices, and receipts scattered everywhere	All expenses sorted by cost centre for easy tracking
Delayed reimbursements frustrate employees	Direct payments eliminate out-of-pocket costs
Cash flow takes a hit from upfront travel costs	Pay later with predictable terms
Limited visibility into total travel spend	Daily updated reports provide clear budget insights

Simpler. Smarter. More organised.

A Corporate Traveller Trading Account helps businesses stay in control of travel spending while reducing admin time and improving financial visibility.

Let's talk about smarter business travel
